

# Vinay Pandey

Full Stack Web Developer

8076936158 | abhi837688@gmail.com | LinkedIn | Portfolio | GitHub  
New Delhi, India

## TECHNICAL SKILLS

---

**Frontend:** React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap 5

**Backend:** Node.js, Express.js, Python, RESTful API Development, JWT Auth

**Database:** MongoDB

**Tools:** Git, GitHub, Postman, VS Code, Vercel, Render

## EXPERIENCE

---

### KWT Education

Delhi, India

*Full Stack Developer Intern*

*March 09, 2026 – Present*

- Managing and optimizing internal web-based enterprise systems to improve overall platform stability and user authentication workflows.
- Collaborating with senior developers to architect scalable administrative dashboards and real-time data monitoring tools.
- Streamlining automated data ingestion processes to enhance the efficiency of large-scale internal repositories.
- Designing and implementing high-performance, responsive user interfaces following modern UI/UX standards and accessibility guidelines.
- Participating in end-to-end system debugging, testing, and deployment cycles within an Agile development environment.

### Alps Insurance

Delhi, India

*Frontend Developer Intern*

- Developed and enhanced responsive user interfaces using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS.
- Worked on reusable React components, state management, and UI bug fixes to improve user experience.
- Integrated frontend components with RESTful APIs and handled authentication flows using JWT.
- Collaborated with backend developers and followed Git-based version control and basic agile workflows.

## PROJECTS

---

### Job Portal | *React.js, Node.js, MongoDB, Tailwind CSS, JWT*

- Designed and developed a MERN-based job portal connecting recruiters and job seekers with role-based authentication.
- Implemented RESTful APIs for job postings, applications, user profiles, and search functionality.
- Built separate dashboards for recruiters and candidates with job filters and application tracking.

### Learning Management System (LMS) | *React.js, Node.js, Express.js, MongoDB, JWT*

- Developed a MERN-based learning management system with role-based access control for teachers and students using JWT authentication.
- Built RESTful APIs for course creation, lectures, quizzes, assignments, and student submissions.
- Implemented student dashboard with course enrollment, progress tracking, and assignment submission features.

## EDUCATION

---

### ACMT Group of Colleges

Delhi, India

*Diploma in Computer Science Engineering*

*2023 – 2026*

### Dice Academy

Delhi, India

*Full Stack Development Certification (MERN Stack)*

*Completed*
